Re: C & D Recycling Site  
Off-site Soil Sampling

Dear Mr. Davis:

I am writing in response to our telephone conversation of April 10, 1989 concerning the activities at the C & D Superfund Site as they relate to your property. As we discussed, EPA is presently in possession of data from the completion of off-site soil sampling. We have enclosed a copy of this information, and have highlighted those sample locations which we believe pertain to your property (field adjacent to C & D).

We anticipate receiving information regarding an expansion to the off-site soil sampling task within the next few weeks. Once EPA has reviewed and approved the scope for additional off-site sampling, I will be sure to forward the detailed information to you. In the interim, please feel free to contact me if you should have any questions regarding the enclosed or other site-related information. I can be reached at (215) 597-1101.

Sincerely,

*Donna M. McCartney*
